

REMARKS

Claims 1-26 are canceled.

New claims 27-43 are identical to those claims previously allowed in the parent application, application serial no. 10/232,794.

This application is submitted to correct the title which was inappropriately amended by Examiner's Amendment in the parent application (paper no. 1203) to recite a non-descriptive title.

37 C.F.R. §1.72 recites that the title "must be as short and specific as possible." M.P.E.P. §606 states the title should be "brief but technically accurate and descriptive." M.P.E.P. §606.01 states the title is to be descriptive of the invention claimed and clearly indicative of the invention to which the claims are directed.

The Examiner's title provided in the parent application recites: "A Method of Forming Integrated Circuitry with DRAMs using LOCOS Isolations and Areas less than 6F²." However, none of the allowed claims recite areas less than 6F². Accordingly, the Examiner's title is not brief, technically accurate nor descriptive of Applicant's invention as recited in claims 27-43 as set forth by the M.P.E.P.

Applicant submits that the Examiner's title is not descriptive of Applicant's invention as recited in claims 27-43, and therefore, the Examiner's title as provided in the parent application is inappropriate and should be withdrawn.

Applicant further submits that the title as amended in this application which recites, "A Method of Forming Integrated Circuitry", is descriptive of the invention provided in claims 27-43, and therefore, is an appropriate title. Further, the title

presented herein is short and specific as possible while being both descriptive and technically accurate of the aspects of the invention defined in the allowed claims as set forth in the M.P.E.P. Applicant respectfully requests approval of this title for this application and allowance of claims 27-43.

This application is believed to be in condition for allowance and action to that end is requested. The Examiner is requested to telephone the undersigned in the event that the next office action is one other than a Notice of Allowance.

Respectfully submitted,

Dated: 4-21-04
